EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims

Claims 14-16, non-elected without traverse in the paper filed January 9, 2003, have been canceled.

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed December 20, 2004 are persuasive. Specifically, Applicant's argument that "Bagrodia et al. disclose a process for producing containers for food and beverages from molded polyester compositions. An advantage of the disclosed process by Bagrodia et al. is the provision of containers with improved barrier and visual properties. However, Bagrodia et al. make no mention or understanding of the ability to significantly enhance the physical and/or mechanical properties of the base resin. Bagrodia et al. do not contemplate the possibility of providing large, structural parts through blow molding of a plastic material being reinforced with nanoparticles. Thus, the Bagrodia et al. reference does not contemplate structural materials". The examiner finds that argument persuasive as one of ordinary skill in the art would not be looking at the Bagrodia et al. reference when contemplating the possibility of providing large structural parts through

blow molding of a plastic material that is reinforced with nanoparticles, therefore all the USC 103 rejections that were in the application were withdrawn in the previous Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
